### PROFILE

---

Computer Science graduate driven by curiosity and a passion for design. I have independently mastered a diverse range of IT skills, including **HTML, CSS, JavaScript, and Python**, blending technical expertise with creative flair. My focus is on crafting responsive, visually striking designs that push the envelope. **Always learning, Always crafting**, I strive to continuously innovate and improve in every project I undertake.

### PROFESSIONAL EXPERIENCE

---

**Internship Trainee** - Aspire Systems(India) Private Limited Oct 2024 – Present

- Enhancing technical and soft skills through an internship.
- Guided by a trainer while also exploring skills independently.
- Developing strong communication and teamwork abilities.
- Engaging in collaborative knowledge sharing and learning about workplace culture.
- Improving aptitude and problem-solving skills through practical tasks and challenges.
- Cultivated strategies for thoughtful and professional responses in team setting, promoting constructive discuss and team work.

### Projects

---

**FOOD DELIGHT:** LINK

- Developed a functional online food delivery website using **HTML, CSS, JAVASCRIPT**.
- The project aimed to create a seamless and user-friendly platform for users to browse, select food and order.
- **RESPONSIVE DESIGN** - visually appealing on both desktop and mobile devices.
- **MENU MANAGEMENT** - Designed interactive restaurant menus with “**add-to-cart**” functionality using JAVASCRIPT.
- **CART AND CHECKOUT** - Built a shopping cart checkout system with real time updates and order summary.

**BMW DESKTOP HOME PAGE:** LINK

- Developed using **HTML, CSS, BOOTSTRAP**.
- Replicated the design of the **BMW India official** home page.
- Focused on clean design, smooth navigation and maintaining brand consistency.
- Demonstrated attention to detail in replicated layout, typography, and dynamic elements.
- Ensured the web page is fully respoinsive, offering a seamless experience.
